

# Center Annual Child Care Training Form

Name: \_\_\_\_\_

Individuals who are required to have annual child care training include:

- All regular employees who care for children regardless of the number of hours worked each week. This includes employees who have dual roles such as a driver who cares for the children when not driving.

Individuals who are hired within 60 calendar days before the license expires must complete a prorated number of training hours, but their review of all of the training topics is not required until the provider's next license year.

Employees, guests, and volunteers who never have caregiving duties (i.e., they are not responsible for meeting the needs of the children, including protection and supervision), such as cooks, secretaries, receptionists, bookkeepers, custodians, drivers, and maintenance workers, do not need to complete annual training.
